SYMPTOMS AND LABS
Ovarian Cancer
• Ascites
• Clear Cell
• Carcinomatosis
• Omental Mass/Caking
• Pleural Effusion
• Papillary Serious

Fixed or Nodular Mass
Symptoms concerning for malignancy
Abdominal/distant metastasis
Pelvic mass

SUGGESTED PREVISIT WORKUP
Labs: CA 125
Lab if clinically indicated:
Imaging: Transvaginal Ultrasound (free fluid), CT Scan
Refer to Gyn Oncology

SUGGESTED EMERGENT CONSULTATION

HIGH RISK

MODERATE RISK
SUGGESTED CONSULTATION OR CO-MANAGEMENT
Abdominal Mass
Adnexal Mass
Ovarian Mass

SUGGESTED WORKUP
Labs: CA 125
Imaging: Transvaginal Ultrasound
Refer to Gyn Oncology

SUGGESTED ROUTINE CARE

LOW RISK

SUGGESTED MANAGEMENT
Refer to Gyn Oncology

SYMPTOMS AND LABS
Family History of Breast or Ovarian Cancer – refer to Genetic Counseling
BRCA + mutation
Lynch Syndrome

SYMPTOMS AND LABS
Gynecologic Oncology referral is encouraged at the discretion of the referring provider.

CLINICAL PEARLS

These clinical practice guidelines describe generally recommended evidence-based interventions for the evaluation, diagnosis and treatment of specific diseases or conditions. The guidelines are: (i) not considered to be entirely inclusive or exclusive of all methods of reasonable care that can obtain or produce the same results, and are not a statement of the standard of medical care; (ii) based on information available at the time and may not reflect the most current evidenced-based literature available at subsequent times; and (iii) not intended to substitute for the independent professional judgment of the responsible clinician(s). No set of guidelines can address the individual variation among patients or their unique needs, nor the combination of resources available to a particular community, provider or healthcare professional. Deviations from clinical practice guidelines thus may be appropriate based upon the specific patient circumstances.
